Dear Recruiter,

I am writing to express my keen interest in the Web Developer role within your organization. With hands-on experience in full-stack web development and cloud-based application deployment, I am passionate about building real-world solutions that are scalable, efficient, and user-focused.

During my recent internship with Nagar Palika Parishad, Nagina, I developed and deployed a cloud-based municipal portal using modern technologies like **React.js** and **Firebase**. The portal served over 50,000 users, with features like complaint tracking, public tenders, and real-time updates. I have also built and deployed multiple personal and academic projects using technologies like **Node.js**, **MongoDB**, and **Tailwind CSS**, many of which are live on the web today.

My growing proficiency in **AWS**—particularly services like EC2, S3, CloudFront, and Route 53—has given me a solid foundation in cloud infrastructure, deployment pipelines, and scalability. I am currently preparing for the AWS Cloud Practitioner certification to further solidify my cloud skills.

I take pride in writing clean, maintainable code and collaborating with teams to turn ideas into impactful applications. I would welcome the opportunity to contribute to your organization and continue learning in a fast-paced, innovative environment.

Thank you for considering my application. I look forward to the possibility of discussing how I can support your team's goals.

Warm regards,

Tarun Thakur

EXECUTIVE SUMMARY:

- Passionate and result-oriented Front-End & Cloud Developer with hands-on experience building scalable, responsive web applications using React.js, Firebase, and AWS.
- Skilled in building admin portals, deploying web apps to the cloud, and integrating real-time databases and authentication systems.
- Familiar with cloud computing and DevOps fundamentals, including AWS services like S3, EC2, and CloudFront.
- Strong understanding of UI/UX principles, mobile-first design, and modern JavaScript frameworks.

TECHNICAL SKILLS:

- **Languages** : JavaScript, HTML, CSS, PHP
- **Frontend** : React.js, Next.js, Bootstrap, Tailwind CSS
- **Backend** : Node.js, Express.js
- **Databases** : Firebase (Realtime & Firestore), MongoDB, MySQL
- **Cloud Platforms** : AWS (EC2, S3, CloudFront, Route 53), Firebase, Azure (basic)
- **Developer Tools** : Git, GitHub, Postman, VS Code, Netlify, Figma, Canva
- **Other** : REST APIs, WordPress, Responsive Design, SEO Basics

PROFESSIONAL EXPERIENCE:

- **Web Developer Intern**
Govt of UP, Nagina
Jun 2024 – Dec 2024
Role: React + Firebase Developer
Responsibilities:
 - Developed a complete municipal portal for 50K+ residents using **React.js** and **Firebase**
 - Built an admin panel for tender posting, service updates, and public announcements
 - Integrated a complaint system with file upload, authentication, and cloud database
 - Managed hosting using Firebase

PROJECTS:

1. Garbage Truck Job Portal – [Live Demo](#)

A modern job portal built with React.js to manage 100+ job listings and applications.

- **Tech Stack:** React.js, Tailwind CSS, Firebase Hosting
- **Features:** Search filters, form submissions, UI transitions
- **Impact:** Improved job matching efficiency by ~40%

2. CSS World – [Live Demo](#)

A real-time CSS generator with 10+ customizable components.

- **Tech Stack:** React.js, Tailwind CSS, Netlify
- **Used by:** 600+ developers for quick styling and previews

3. NPPNagina Web Portal – [Live Site](#)

A government site for civic governance & citizen interaction.

- **Tech Stack:** React.js, Firebase, Cloud DNS
- **Features:** Complaint system, tenders, image gallery
- **Impact:** Enhanced local government communication

EDUCATION:

- **MCA** – Graphic Era Deemed University, Dehradun (2022–2024) | CGPA: 8.65
- **B.Sc. IT** – Graphic Era Deemed University, Dehradun (2019–2022) | CGPA: 8.25

DECLARATION:

I hereby declare that the above-mentioned particulars are true to the best of my knowledge and belief.

Place: Dehradun

Date: July 2025
